

UNDER BONNET INSPECTION LAMP

Long operating time allows full working day usage

Polycarbonate, ABS & Aluminium construction

Hook design allows usage with different vehicle types including cars, vans and 4x4s

3 x 5W LEDs provide 1000 lumens light output

3 levels of light output

6000K colour temperature for bright white light

40° adjustable head to shine light on the engine bay exactly where it is required

60° wide angle illumination

Product Dimensions (mm):

H 110 x W 1195 x D 120

Weight (kg): 2.196

Voltage: 5V

Watts: 15W

Battery Info:

Rechargeable 3.7V 10400mAh Li-ion battery

Includes AC mains adaptor

Illuminated battery status indicator

Part # REUBL1000

60 AMP 12/24V FULLY AUTOMATIC BATTERY CHARGE WITH BOOST FUNCTION

3 stage SmartCharge technology - optimises battery performance and improves the ability to hold charge

Jump starter included - 540A starting current to quickly revive flat batteries.

Easy to view LED display - shows voltage, current and the charge mode selected. Easy to pick the correct charge mode and review charging performance.

Versatile - suitable for 12V, 24V and stop/start batteries, and works across mixed battery types in cars and commercial vehicles.

Product Dimensions (mm):

H 875 x W 352 x D 275

Weight (kg): 19.022

Voltage: 12/24V

Amps Output: 60 A

CE Approved

Part # RCBT60T

55 AMP 12/24V TROLLEY CHARGER WITH BOOST FUNCTION

Professional 55A Metal Cased Trolley Charger with 420A Jump Starter.
Selectable outputs for 12V and 24V vehicles.
Six charge rate settings with timer function and digital ammeter.
Rugged metal casing with high capacity cable and battery clamps.
Suitable for intensive use in garages, workshops and commercial vehicle depots.

Product Dimensions (mm):

H 870 x W 420 x D 325

Weight (kg): 27.996

Voltage: 230V AC Input 12/24V DC Output

Amps Output: 55A

CE Approved

Part # RCBT55T

40 AMP 12/24V TROLLEY CHARGER WITH BOOST FUNCTION

Professional 40A Metal Cased Trolley Charger with 280A Jump Starter.
Selectable outputs for 12V and 24V vehicles.
Four charge rate settings with digital ammeter.
Rugged metal casing with high capacity cable and battery clamps.
Suitable for intensive use in garages, workshops and commercial vehicle depots.

Product Dimensions (mm):

H 790 x W 370 x D 285

Weight (kg): 20.674

Voltage: 230V AC Input 12/24V DC Output

Amps Output: 40A

CE Approved

Part # RCBT40T

30 AMP 12/24V BENCH CHARGER/STARTER

Professional 30A Metal Cased Bench Charger with 150A Jump Starter. Selectable outputs for 12V and 24V vehicles.

Dual charge rate settings with analogue ammeter.

Rugged metal casing with high capacity cable and battery clamps.

Suitable for intensive use in garages, workshops and commercial vehicle depots.

Product Dimensions (mm):

H 275 x W 317 x D 255

Weight (kg): 10.348

Voltage: 230V AC Input 12/24V DC Output

Amps Output: 30A

CE Approved

Part # RCBT35

12V GRAPHICAL BATTERY ANALYSER WITH PRINTER

Multi-function testing of battery, alternator, starter and vehicle earth.

Intuitive Graphical User Interface.

Integrated thermal printer for instant recording of results.

Memory storage up to 80 results allows multi-vehicle testing.

Battery range setting for smaller motorcycle batteries.

Selectable battery types for Wet, AGM & EFB.

Temperature compensation for more accurate results.

Alternator diode ripple test function.

Includes icon driven software to allow report printing via PC.

Robust storage case.

MAGFLEX LED INSPECTION LAMPS

2016 Auto Express Award Winner.
360° rotation and 180° ratcheting for ultimate control over lighting direction and angle.
Exceptional light output - new COB LED technology emits 250 lumens.
Produces white light similar to daylight.
Wide angle light output that has uniform intensity.
Magnet and hanging hook for hands-free use.
Rechargeable and cordless.
Lithium ion battery gives fast, consistent charging
Tough polycarbonate and ABS construction.
Non-slip, comfortable grip.
Includes AC mains charger.

Product Dimensions (mm):

H 242 x W 51 x D 42

Weight (kg): 0.488

Part # RREIL3600HP
