

Brake Cleaner

Cleaning and degreasing of metals (e.g. brake/gearbox/engine parts)
 Complete evaporation of the cleaner makes rework unnecessary
 Removes oil, grease, brake fluid and brake dust without leaving any residue
 Does not contain acetone
 Compatible with many surfaces in the automotive sector
 If the can is to be used upside down, first turn the can and then spray.
 This ensures that the valve functions correctly.

Spring Clamps

Spring Hose Clamps are the best choice for hose spigot systems that are exposed to significant temperature fluctuations. Once installed, their dynamic spring properties ensure an automatic re-tensioning effect over long periods of time.

Heat Shrink Sleeving - Rolls

Areas of application:

Generally used as an electrical insulating material to insulate, protect, or bundle connections, wires, and contacts.

For soldered or crimped connections, especially connections of parts with unequal diameters

Protects the contacts and electronics from short circuits and wear and tear from movement.

Another application is to hold bundles of wire together.

According to UL224 VW-1

Product benefits:

Heat shrink tubing has the property that it shrinks in diameter when heated, for example with a hot air gun.

The material hardly shrinks in length.

It adapts to the shape it encloses.

The material exerts no significant forces when shrinking.

Wall Mounted Bracket for Heat Shrink Sleeving Rolls

Product benefits:

Safe storage and separation of cables

Mounting hardware included – cable not included

Easy to use

Special brackets prevent unwanted unwinding.

Coils can be replaced individually.

Easy handling when adjusting size and cutting

Customizable

Can be attached to a workshop wall,

Suitable for cable reels or heat shrink tubing boxes (width 60 mm)

The 275 waterproof sheets can be used either wet or dry. They have a high stock removal rate and extremely long lifetime. The Aluminium Oxide grains provide fast cutting results whilst the middle weight paper is suitable for more demanding sanding, where applied pressure should be higher. It is suitable for sanding down coatings and flattening of body and primer fillers.

Smirdex Wet/Dry Paper Sheets

smirdex

The 275 waterproof sheets can be used either wet or dry. They have a high stock removal rate and extremely long lifetime. The Aluminium Oxide grains provide fast cutting results whilst the middle weight paper is suitable for more demanding sanding, where applied pressure should be higher. It is suitable for sanding down coatings and flattening of body and primer fillers.
